

HEDGEHOG LOG

Hedgehogs are one of Britain's most loved world animals
but they're in trouble.

**Since the year 2000 we've lost about a third of our
urban hedgehogs.**

One of the big reasons is that their routes are blocked.
Fences walls and roads stop them from finding food shelter
and mates.

The good news? We can all help.

Make a small hole in your garage fence called a
Hedgehog Highway. This can make a big difference to
help hedgehogs move between gardens and green spaces.
